ECHO CHAMBER

SCI-FI ANTHOLOGY SERIES

PROJECT SNAPSHOT

Genre: Sci-Fi Anthology / Psychological Thriller

Format: 10 × 1-hour episodes

Tone: Haunting, Speculative, Intimate

Setting: Unified near-future society shaped by tech

Status: Pilot outline, bible, poster, pitch deck available

PREMISE / LOGLINE

In a world where curated identity is currency and memory is programmable, each standalone episode of Echo Chamber dives into the dark consequences of optimized existence, where technology doesn't just serve us, it becomes us.

WHY IT SELLS

- ✓ Timely commentary on AI, identity, and surveillance
- ✓ Visually distinct, emotionally grounded storytelling
- ✓ Prestige anthology model with built-in flexibility
- ✓ Standalone stories = marquee casting potential
- ✓ Streamer-friendly, culturally relevant, bingeable

PILOT EPISODE: "FILTER"

You are your best self. Until they take it from you.

An influencer wakes up to find her real face permanently replaced by her filtered persona. Her popularity explodes, until the AI version starts replacing her in every part of her life.

VISUAL STYLE

MOOD WORDS

Glitchcore. Minimalism. Surreal tech horror.

DESIGN CUES

Dark tones, neon accents, soft reflections, fragmented symmetry

REFERENCES

Black Mirror, Severance, Ex Machina

IDENTITY • CONTROL • ILLUSION
