SYNOPSIS

Monique Davenport is a gifted but overlooked artist working double shifts at a diner to raise her son Jaylen. When she's mistaken for an elusive gallerist during an armed robbery at an exclusive event, Monique plays along to stay alive. The next day, the world believes she's Bianca St. James-and Bianca is nowhere to be found.

As Monique navigates FBI suspicion, viral conspiracy theories, and the cartel-connected art underworld, she uncovers evidence that she wasn't misidentified by accident-she was chosen. Bianca stole Monique's work, her voice, and nearly her life. With her son's safety at stake, Monique steps into the shadows of power, determined to rewrite the story, reclaim her name, and expose the truth.

THE PROXY

THEMES & TONE

- Identity, authorship, and erasure in a world built on image
- Power from powerlessness - a woman weaponizing survival
- Art as a battleground - legacy, exploitation, and justice

Tone: Stylish, tense, emotional. Think **Inside Man** meets **Killing Eve**, with the cultural depth of **The Crown**'s best episodes and the intimacy of **Queen & Slim**.

THE PROXY

VISUAL STYLE & SETTING

Set in Atlanta's vibrant and contradictory art scene-where gentrified gloss hides underground exchange. Rich warm tones in Monique's world; cold minimalist tones in Bianca's. Camera lingers on textures: paint, fabric, skin. Shifts from handheld realism to stylized compositions as Monique transforms.

Art is not just backdrop-it is a character.
